E-mail: takahiro@npsych.med.kyushu.ac.jp

Background

2022 年 1 月 28 日(金) 22:27 <afzalj@gmail.com>:

Dear Prof Shinfuku

As you know WPA is having our next world congress in Bangkok (Asia) in August 2022. This is a hybrid meeting although we are expecting more people to join us in person. We are organising some virtual sessions that will be pre-recorded on the topics of Pharmacological advances in treatment of psychiatric disorders. Being a pioneer and key leader for REAP studies, I wonder if you can organise a session about this. There will be three speakers in this session, one speaker acting as chair of the session with duration of session as one hour. The recording will be released at the congress (or may be one week before the congress) and all registered participants will be able to log in for the recorded sessions. Kindly advise about your support for this programme and if you agree, we will need names and contact details of these speakers preferably by 10th February 2022.

Kenes, our congress PCO, will contact the speakers with further details for recording. Thanks for your support to WPA

With regards

We can allocate two sessions if needed. Please advise.

I would suggest speakers covering their presentations from REAP studies.

However for the choice of speakers and contents, I leave this with you.

Afzal

Dr Afzal Javed

President World Psychiatric Association
